# auto watch

### 695 CANBUS ALARM

The 695 CANBus alarm is our flagship CANBus alarm system capable of interacting directly with a vehicles CANBus system and providing both read and write capabilities.

This depending on the particular vehicle, allows for a true 4 wire (CANH, CANL, Power and ground) alarm system.

CANBus functionality that is not supported for a particular vehicle may additionally be hard wired.

### 555 UPGRADE ALARM

The 555 is an add on alarm specifically targeting vehicle's with factory fitted central locking.

The system learns the factory fitted central locking pulses for activation and deactivation.

It is thus possible to operate the alarm using the original OEM key fobs.

### 446 PREMIUM HI-JACK ALARM

The Autowatch 446RLi Premium is the smallest and most advanced vehicle security system in its class today.

This new and exciting system is packed with the latest innovations and comfort features such as: turbo timer, anti hijack immobilisation, keyguard, double unlock pulses, various vehicle horn and siren compatible outputs, door warning indication, auto-arming alarm and immobiliser, early warning, nuisance alarm prevention just to name a few.
