Alarms

Remote Alarm | 661

- Two uniquely coded remote control transmitters
- Monitors doors, bonnet and boot
- Detects shocks to the car
- Central locking integration
- Flashing light on the dash
- Emergency PIN override
- Standard siren
- Indicator flash on arm and disarm
- Two year manufacturer's warranty (1 year on remotes)

Remote Alarm Deluxe | PARA375, PARA375B & PARA385

- Two code hopping remote transmitters
- Monitors doors, bonnet and boot
- Detects glass breaking
- Central locking integration
- Flashing light on dash
- Two points of immobilisation
- Emergency PIN override
- Australian Standard AS3749 compliant
- Two year manufacturer's warranty
- Optional electric window closer
- Optional window LED
- Diagnostic reporting
- Siren options: SIR-006 = PARA375, SIR-005 = PARA375B
- SIR-001 = PARA385
- Two year manufacturer's warranty (1 year on remotes)

Remote Alarm Elite | PARA775, PARA775B & PARA785

- Inbuilt intelligent auto transponder disarm
- Includes all features of 'Remote Alarm Deluxe'
- Multi Australian Standards approved
- Protection of doors, boot and bonnet with an glass break sensor
- 115dB battery back up siren
- Visual deterrents include vehicle indicators, high intensity blue LED that can be either dash or windscreen mounted
- Diagnostic reporting and optional keyless entry integration
- Blue window mounted LED
- Siren options: SIR-006 = PARA775, SIR-005 = PARA775B, SIR-001 = PARA785
- Available in immobiliser model PARA755
- Two year manufacturer's warranty (1 year on remotes)

Remote Alarm | AutoWatch 279020

- Ultrasonic movement sensors
- Full central locking control on board
- 2 x 2 Button remote transmitters
- Built in bump sensor
- Anti-hijack
- Early warning
- Auto-arming
- Door open warning
- Silent arm and disarm (selectable)
- Lock and unlock with ignition
- Siren not supplied in kit
- Emergency PIN override
- Two year manufacturer's warranty (1 year on remotes)

Remote Alarm | AutoWatch 446002

- External illumination on disarming - vehicle locator
- Movement sensor isolation
- Emergency PIN override
- Auto arming three circuit immobilisation optional
- Built in memory for up to 8 remotes
- Ignition hot-wire sensing
- Visual and audible on/off indication
- Rapid test mode for installers
- Alarm trigger report back
- Early warning option
- Suitable for 375800 battery back up siren
- Two year manufacturer's warranty (1 year on remotes)

Remote Alarm | AutoWatch 457002

- On-board auto arming immobilisation
- Auto arm & re-arm
- Lock/Unlock with ignition
- Wireless sensor option (655000 / 659000)
- Negative Output when armed (Selectable)
- Ignition Anti-Hotwire
- Indicator / Park-light Flashing
- Audible Door Open warning
- Anti-tamper Security Housing
- Remote Panic Alarm Facility
- Anti-key theft facility
- Output for GPS/GSM tracking system
- Two year manufacturer's warranty (1 year on remotes)

695 CANBUS ALARM

It is much easier to install a CANBus system because in most CAN enabled vehicles you only need to connect two CANBus wires, power and ground.

It saves time to install whilst offers numerous additional features and eliminates the need to cut into a vehicles harness.

OPTIONAL WIRELESS SENSORS

Wireless Passive Infrared Sensor
product code 655000

Wireless Door Sensor
product code 659000

- Arm/Disarm the alarm system using the vehicles original remote control
- Indicator/side light output
- Intelligent battery back-up siren
- Siren chirps with arming/disarming of alarm system (selectable)
- PIN code over-ride
- Doors trigger input
- Bonnet trigger input
- Ignition trigger input
- Boot trigger input
- False alarm nuisance prevention
- Boot release optional
- Pager/tracking trigger output
- Optional wireless PIR
- Optional wireless door sensor
- Door open audible warning (selectable)
- Ignition anti –hotwire
- Central locking outputs
- Temporary isolation of interior sensors
- Alarm trigger diagnostics

Upgrade Alarms

CANbus Upgrade Alarm | AutoWatch 695 KIT

- Arm / Disarm the alarm system using the vehicles original remote control
- Indicator / side light output
- Volumetric sensors with exclusion facility
- Intelligent battery back-up siren.
- PIN code override
- Pager / tracking input
- Pager / tracking output
- Optional wireless PIR and door sensors
- Less than 20mA current draw in armed state
- Supplied with Battery Back up Siren - 375800-2
- Supplied with Glass Break Sensor - 196000
- Two year manufacturer's warranty

Upgrade Alarm | AutoWatch 555 KIT

- Arm / Disarm the alarm system using the vehicles original remote control
- Indicator / side light output
- Volumetric sensors with exclusion facility
- Intelligent battery back-up siren
- PIN code override
- Optional wireless PIR and door sensors
- Less than 20mA current draw in armed state
- Supplied with Battery Back up Siren - 378000
- Supplied with Glass Break Sensor- 196000
- Two year manufacturer's warranty

Remote Alarm | Cyclops PARA485

- Arm / Disarm the alarm system using the vehicles original remote control
- Monitors doors, bonnet and boot
- Glass break detection
- Central locking integration
- Flashing light on dash
- Two points of immobilisation optional
- Emergency PIN override
- Optional window LED
- Diagnostic reporting
- Supplied with Siren
- Supplied with Glass Break Sensor - GBS-4XR
- Siren options: SIR-006 = P475, SIR-005 = P485B, SIR-001 = P485
- Two year manufacturer's warranty

"Locks Dont Stop Thieves"

TG-5000

- Loud 120dB siren installs easily in the engine bay with just 2 wires
- ToolGuard Sensor protects your valuable tools
- In-built Shock and Voltage Drop sensors protect your vehicle contents.
- Includes Panic & Car Locator functions
- Supplied with 2 Code Hopping RemoteS
- ToolGuard Sensor uses 2 AAA batteries (included)

TG-6000

- The TG-6000 Wireless Bridge plugs directly into any CYCLOPS car alarm for easy pairing
- ToolGuard Sensor protects your valuable tools
- ToolGuard Sensor uses 2 AAA batteries (included)
- Up to 2 years battery life
- Additional ToolGuard Sensors (TG-5100) can be added to the system

TG-5100

- ToolGuard Sensor protects your valuable tools
- Uses 2 AAA batteries (included)
- Up to 2 years battery life

TG-4000

- The TG-4000 Wireless Toolbox Alarm installs in under your Toolbox or Truck lid to protect your valuable tools.
- For single toolbox applications only
- No wires
- Uses 3 AA batteries (included)
- Easy 30 second installation
- Toolbox or Truck Lid Protection
- Loud 110db Piezo Siren

Caravan Alarm

Protect your assets whilst exploring

- 110dB Internal Siren / Strobe
- Tilt / Shock Sensor
- GPS Tracker output
- 2 x Code Hoping Remote Controls
- Indicator Flash on arm / disarm / trigger
- Blue LED

Immobilisers

Touch Key Immobiliser | PARA165

- Two uniquely coded Touch Keys
- Flashing light with receptacle on the dash
- Two points of immobilisation
- Emergency PIN override
- Australian Standard AS4601 compliant
- Two year manufacturer's warranty (1 year on remotes)

Transponder Immobiliser| PARA205

- Two uniquely coded Transponder Tags
- Two points of immobilisation
- 24 Volt version available
- Emergency PIN override
- Australian Standard AS4601 compliant
- Two year manufacturer's warranty (1 year on remotes)

Remote Immobiliser | PARA275

- Two code hopping remote controls
- Central locking integration
- Flashing light on the dash
- Two points of immobilisation
- Automatically immobilises after 40 seconds
- Australian Standard AS4601 compliant
- Emergency PIN override
- Optional indicator flash on arm and disarm (INDKIT)
- Optional window LED
- Two year manufacturer's warranty (1 year on remotes)

Remote Deluxe Immobiliser | PARA355

- Two code hopping remote controls
- Central locking integration
- Flashing light on the dash
- Indicator flash on arm and disarm
- Two points of immobilisation
- Automatically immobilises after 40 seconds
- Emergency PIN override
- Australian Standards AS4601 compliant
- Two year manufacturer's warranty
- Optional Anti-hijack and Auto-relock features
- Fully upgradeable to an alarm system
- 24V, Turbo, Non Auto Arming version available
- Optional window LED
- Two year manufacturer's warranty (1 year on remotes)

TURBO | COURIER
NON AUTO ARMING

TURBO

Our turbo timer software caters for engine run-on allowing the turbo to cool at idle for potentially high rpm.

- Integrate with an existing turbo-timer to prevent auto-arming whilst the engine is still running (code TAL), or
- To provide turbo-timer functionality, where one of the alarm outputs includes a timer that can be used to keep the engine idling for a certain period of time after the ignition is turned off (code ITB).

Available in theses models : PARA355T, PARA375T, PARA375BT & PARA385T

COURIER

Our courier version of immobilisers and alarms are ideal for refrigerated vans / trucks (or any courier) allowing the driver lock the vehicle running while leaving it runnung. Any unlawful attempt to enter the vehicle will cause the immobiliser to engage and the alarm to trigger.

Available in theses models :
PARA355/C, PARA375/C, PARA375B/C & PARA385/C

Non Auto Arming

Australian Standards requires any immobiliser to Auto Arm after 40 seconds, if you do not want this as a feature we can provide software to eliminate it. Please be aware this means your system no longer complies with Australian Standards.

Available in theses models :
PARA355/NAA, PARA375/NAA, PARA375B/NAA, PARA385/NAA

24 Volt Systems

We have several products in our range that are designed for 24 volt trucks and cars.

Caravan Camera Kit

Eyes on the back of your van

With the Cyclops caravan infrared camera permanently on whilst driving, it allows you to see everything your mirrors can't….. Knowing when cars are approaching from behind has many benefits, including allowing you to let vehicles behind you know when it's safe to pass.

The Cyclops Caravan Kit is not only a set of eyes on the back of your caravan whilst driving but is a very handy reverse camera.

C028 Infrared (18 LED) Camera

- 120 Degress Horizontal viewing angle
- IP67 Waterproof Rating
- 380 Reolution
- CMOS-PAL

CL-703S Trailer Cable Kit

- Heavy Duty connectors and metal brackets
- 1 x 30m Cable with AV connectors
- 1 x 5m Cable with AV connectors

RV-5005A Clip on Monitor

- 5" TFT LCD PAL/AUTO/NTSC
- 2 x AV inputs
- Clips over existing mirror, can be removed when not towing

Dash Cams / GPS Nav

NAVMAN

Dynamco teams up with Navman. Enquire now re pricing and availability of the Navman Dash Cam and Navigation Range.

NAVMAN

Navman is a leading manufacturer of world-class Dash Cam technology. They develop and market products that enable users to take advantage of the latest developments in automotive technology, offering some of the best Dash Cams in the market.

Key-On Lights On & Handbrake Alarm

The KOLO is an intelligent, universal, stand-alone Key-On Lights On with Hand-Brake Alarm all in one control module for most 12 volt vehicles on the market today.

Key-On Lights On

While the ignition is turned on, the KOLO monitors the vehicle battery. Once the battery begins to receive charge, the system will switch on the vehicle's Low Beam and Park Light.

High Beam Operation

The KOLO willl cancel the Low Beam while the High Beam is engaged for more than three seconds. This prevents overheating the vehicles headlight assemblies where both high beam and low beam filaments contained in the same globe housing.

Handbrake Alarm

The KOLO monitors both the Handbrake and Driver Door. If the driver's door is opened while the handbrake
is not engaged, the system will sound a Warning Buzzer. The alarm can only be reset by applying the handbrake.

Compatible with: • Hilux • Prado • LandCruiser • Ford Ranger PX2/PX3 • Isuzu • Amarok • Colorado

Product code: KOLO

MAGNEFINE 10mm Magnetic Inline Transmission Filter

The MAGNEFINE 10mm filter extends the filtration spectrum to provide dual filtration that is designed to be completely effective in removing damaging ferrous metal particles from automatic transmissions and power steering systems.

When the fluid passes within the effective range (5mm) of the powerful magnet, the MAGNEFINE filter quickly attracts all the hard damaging ferrous particles, even down to an incredible sub-micron level stopping the "chain reaction of wear". (University tests show removal of harmful ferrous metal particles to 99.9974%) The secondary filtration media removes any remaining non-ferrous materials (i.e. copper, aluminium, dirt, clutch material).

The worldwide patented MAGNEFINE dual filtration filter is the only effective form of filtration that can provide dynamic small particle extraction while maintaining full line flow capabilities for automatic transmissions and power steering systems.

EXTENDS TRANSMISSION SERVICE CYCLE
Continual cleaning of the transmission fluid actually produces cleaner fluid than the new fluid you put into the system. Major OEM's recommend adding 10,000 kms to your service cycle with the use of the Magnefine filter

EXTENDS COMPONENT LIFE
Filtering out ferrous particles 3 microns and up will enhance component life by 7 times, according to Sayles and Macpherson.

DESIGNED FOR EASY INSTALLATION
Easily installed on both hose and steel lines. Magnefine has simplified steel line installations with the use of its "SMART CONNECT" fittings.

SIMPLIFIES TRANSMISSION SERVICING
No more dropping the pan to service the pan filter at your normal cycle. Pan filter servicing is recommended at 100,000 kms. Servicing may be accomplished by evacuation at the inline filter points or by draining. STOPS "CHAIN REACTION OF WEAR" Removing the ferrous particles in the 3 to 15 micron range with the powerful magnet stops the wear and break down of the stabilisers

COMMAND
AUTO GROUP PTY LTD

Dynamco is proud to be appointed as a Premium Distibutor for Command Auto Group (CAG) Cruise Controls. Our clients can choose from the 900 series of cruise controls and speed limiters. The CAG range includes direct CAN-BUS intergated, Drive-By-Wire, Standard Vacuum and Electro-Mechanical systems.

Autostrada.

We also use the Autostrada range of E-Cruise Controls that are engineered to suit most vehicles, including Drive By Wire and Canbus systems. Autostrada back up their quality products with unsurpassed customer service, technical support and warranties up to five years.
