SMARTBOX III

The SMARTBOX power hard wiring kit is an optional accessory that connects directly to your car battery, to provide continuous power to support the Dash Cam parking mode feature, after the engine has been turned off. It prevents your car battery from being completely drained of power when not in use and has an auto shut off feature based on a preset time and when your car battery voltage drops below a certain rating.

*SMARTBOX accessory required to provide constant power supply to your dash cam device for use in Parking Mode.

BIGGER IS BETTER

2/3" Low Light
Premium XL Sensor

Full HD 1080P
Recording

MiVue™ SENSOR XL

Built with a super large 2/3" Low Light Premium XL Sensor enabling it to film in greater detail than ever before in Full HD 1080P 60 frames per second. The Extra Large sensor is perfect for capturing detail in low light conditions like dawn and dusk, during rain or whilst in multiplex car parks. Plus, it includes WIFI capability for sharing footage via the MiVue™ Pro app and speed and safety camera alerts can be updated monthly for free.

* MiVUE1100 Sensor XL DC Premium Kit also available

MiCam Range

MiCam is a dash cam, a GPS and peace of mind. Bringing the best of dash camera functions, navigation and phone all into one unit, decluttering your dash and simplifying your drive.

STARVIS

Crystal clear images in low-light conditions. Captures video with superb contrast, clear and rich colours. With optimal vision and superior recording especially in low light conditions.

60

Speed alert signage appears on screen in real time side by side with the actual speed you are travelling, and audible warning if you are exceeding the limit.

GPS

Track your position wherever you go. The built-in high sensitivity GPS receiver automatically records your driving information including location, direction and speed.

ETA

“At a glance” route information including Advanced Lane Guidance, ETA, next turn directions, and choice of routes. Plus “distance to go” bar which counts down to the next speed or red light camera.

Full HD 1080

Records high definition videos at 1080P Full HD resolution on H.264 compression so you can record and save more.

- 7" Capacitive Screen
- Truck Mode
- B-Double and HAZMAT Routing
- Low Gear and No Engine Brake Alert

WEAREGPS

NAVMAN HAVE BEEN THE MARKET LEADERS, THE GO TO BRAND, THE INNOVATORS IN GPS SINCE OUR EMERGENCE INTO THE MARKET MORE THAN 20 YEARS AGO.

Warns about speed and red-light cameras, school zones and more.

Displays on the screen the actual speed limit for the road you're travelling on.

This feature uses local landmarks to provide directions. For example, "in 200 metres, turn right at the petrol station into Smith Street".

Detailed voice guidance with spoken street names.

Advises the best lane to be in for an upcoming turn off or junction.

MOVE130M
